

Arizona Super Bowl LVII Host Committee brings Youth Football Clinic to Ak-Chin

Story and photos by J. Peters

At left, Ak-Chin Vice Chairman Lemuel Vincent with 1995 Dallas Cowboys Super Bowl Champion Derek Kennard, during the Football Clinic, October 5.

On October 5th, the Ak-Chin Indian Community and the Arizona Super Bowl LVII Host Committee offered an exciting youth football clinic for community children.

The hour-long clinic was set up on the field at Ak-Chin Circle, with children, parents, employees, and tribal council on hand to witness all the fun and excitement.

The Host Committee volunteers, that included TEAM AZ and NFL Alumni, such as former Dallas Cowboys Derek Kennard, graced the field and conducted numerous football inspired drills and talked to the children about teamwork and health.

Children were full of energy and ready to get the day started with their first challenge of running, catching and going through a set of fun high paced obstacle courses.

The children even got lessons from former NFL players

as the day went on. Getting to play against one another while wearing an inflatable bumper ball suit seemed to be the favorite activity of the day, as the younger and older kids competed against one another to see who could score the most "touch downs" in a game.

AZFamily 3TV was live to report on the event, and interviewed Vice Chairman Lemuel Vincent. "This actually brings a lot of excitement, not only excitement with the Super Bowl but also just getting people out here and indulging in activities like this." Vice Chair shared. "It defines what the Host Committee brings to our Community and we are privileged enough to be a sponsor with them again, this year for the Super Bowl."

This is the second opportunity that the Community has been able to host this event, in partnership with the Super Bowl Host Committee.

Ak-Chin Parks and Recreation staff enjoy National Parks and Recreation Conference

Submitted by: Bernardina Gonzalez, Ak-Chin Parks and Recreation Program Coordinator

Each year a state is chosen to host a premier Parks and Recreation conference for the passionate parks and recreation professionals through inspirational education sessions, energetic discussions and an inside look at the latest products for the field. This year the National Parks and Recreation Conference was held here in Arizona!

Thousands of Parks and Recreation passionate professionals all came together to for three amazing days to share knowledge, experience, tools, and inspire one another to achieve the same ultimate goal of making each of our Community's Parks and Recreation Facilities the best programs, activities, events, parks and great service to our Community.

The exhibit was such a great experience and an even better networking opportunity to build business/collaboration relationships to help serve our Community on upcoming events/programs.

During the exhibit Wesley Gonzales, Ak-Chin Parks and Recreation Coordinator and I were asked to join in a game of pickleball, which is a sport that has been trending a lot lately.

I had never played but I have heard about the new popular sport pickleball; just a few minutes of playing, man I was hooked! I can see why pickleball is gaining such popularity because it's easy to play, low impact and appeals to a wide range of people, from kids to senior citizens.

My pickleball partner Wesley and I won a couple prizes while competing in pickleball games. Wesley won a pickleball set and I won a pickleball t-shirt. Wesley and I also won a couple of matches, but mainly I was struck by how fun the game is. We can't wait to offer the sport to our Community.

Wesley and I also attend the NPRA Opening Reception, it was a great event where we met new amazing Recreation

Pickleball partners Bernardina and Wesley Gonzalez were awarded Pickleball items for their participation.

Professionals from all over the United States who shared the same passion as we do for our Community.

The NPRA and APRA offers an array of professional development opportunities and conferences or classes throughout the year that provides us with great resources and tools to better serve our community.

Both NPRA and APRA are great memberships to have, it allows us to discuss topics and to get feedback from our peers who maybe went through or who are dealing with similar issues/challenges within their Community. Sharing our own experiences or resources is such a great tool to have and adds to our personal development to bring great things back to our Community and department.

The keynote speakers were amazing, dynamic education sessions were informational, and the exhibit hall provided

plenty of unique ways to network and connect with peers from across the country.

Education topics Wesley and I focused on were: Aquatics, Career Development, Conservation, Customer Service, Equity and Inclusion, Health and Wellness, Leadership and Personnel Management, Planning, Design and Maintenance, Programming Public Policy and Advocacy.

Ann Marie Antone, Ak-Chin Recreation Director also attended.

"My Education session I focused on was about positive reinforcement, encouragement and inspiration to our youth and my department. I also took advantage of the Leadership and personnel development management sessions. Biggest goal was to find a vendor/company who can come out to replace our out of compliance playground feature at Milton Park."

Jennifer was also a particularly special guest, as she once worked for Ak-Chin Him-Dak Museum as a technician back in 2005-2006.

During an interview, Jennifer credited her time at the museum and work with Museum Director, Elaine Peters for her current position.

"Elaine is actually the one who guided me to go for a library degree... What we need in tribal communities is professionals who can manage both of these spaces, and so that's what I did."

Mrs. Himmelreich talked of the grants that Ak-Chin's received and how they are being utilized.

"Melanie's been really fantastic as director, making use of these grant programs for projects that benefit the Ak-Chin Community. These grants allow tribal museums to do anything from add staffing, build bigger collections, supplement or refresh spaces with furniture. They can also be for language preservation and cultural vitalization programs... They just have to be run through the library or the museum."

Melanie shared that the Ak-Chin Indian Community Tribal Council approved the request to host the Gathering of Arizona Tribal Libraries as the Arizona State Library, Archives & Public Records asked if the conference could be hosted here due to the accommodations, amenities, and the COVID-19 restrictions were lifted to plan an in-person gathering.

The conference would not have been possible without the Ak-Chin Indian Community, Ak-Chin Circle, Harrah's Ak-Chin Hotel and Casino, the Arizona State Library, Archives & Public Records, and the Institute of Museum of Library Services.

TGAL continued from Front

Starting off the conference was Ak-Chin Council Member, Delia Carlyle who said a morning prayer to get the day started, followed by Ak-Chin Library Manager, Melanie Toledo who welcomed everyone to the community and outlined the itinerary for the day.

Library Manager Toledo, provided a few highlights from the conference. "The Ak-Chin Indian Community Library was a site visit and we had a chance to show all the tech gadgets we received through various library grants: IMLS and LSTA. Jennifer Himmelreich, IMLS Senior Program Officer, was impressed with the library and was hoping to use the library as a future case study of successful grant projects."

"Some visitors recalled the first time the Gathering of Arizona Tribal Libraries was held at the (Ak-Chin) Service Center and they were lost on the farm dirt roads. The Ak-Chin Fire department helped the visitor by giving her an escort to the Service Center. Another visitor driving from Window Rock, Arizona, was concerned as she was leaving the Phoenix area and driving along 347 and worried her phone was giving her wrong directions!"

Jennifer Himmelreich, Senior Program Officer with the Institute of Museum and Library Services, whom Melanie mentioned previously, was asked to come out and introduce herself to Arizona tribal librarians and give a presentation.

"I gave an overview of the grants that we offer and things that would be most probably useful to the communities that are represented today... I oversee the grants that are specifically for Native American, Alaska Native and Native Hawaiian communities."

Ak-Chin Fire Department take Cultural Sensitivity Classes

Ak-Chin Language staff share O'odham history and language with Ak-Chin Firefighters. Submitted by Jennifer Boehm-King, Ak-Chin Fire Dept. Captain

Ak-Chin Fire Department learned about cultural sensitivity through classes taught by Ak-Chin Language Program that included the history of Ak-Chin.

We learned some basic phrases/greetings in O'odham, learned how to say body parts in O'odham. Classes were

held in September on the 20th, 27th and 29th for all three fire shifts.

The Language program held the training and even sang the birthday song to one of our firefighters (Matt Shepard).

We have held the class in the past, but that was many years

ago so we wanted to have another class as we have hired many new firefighters in the last couple of years.

We were tested on our knowledge at the end of the class and the language department handed out prizes for our efforts.

*For Residents, Employees and Family of Employees of the Ak-Chin Indian Community.

10/13/2022 – The Ak-Chin Fire Department and the Ak-Chin Health Education Department are teaming up with the National Fire Protection Association® to celebrate the anniversary of Fire Prevention Month.

Fire Prevention Month is celebrated every year to commemorate the Great Chicago Fire which began on October 8, 1871 which caused devastating damage. This horrific fire killed more than 250 people, left 100,000 homeless, destroyed more than 17,400 structures, and burned more than 2,000 acres of land.

This year's campaign, "Fire won't wait. Plan your escape™", works to educate everyone about simple but important actions they can take to keep themselves and those around them safe from home fires.

"Today's homes burn faster than ever. You may have as little as two minutes (or even less time) to safely escape a home fire from the time the smoke alarm sounds. Your ability to get out of a home during a fire depends on early warning from smoke

alarms and advance planning," said Lorraine Carli, vice president of Outreach and Advocacy at the National Fire Protection Association®.

The Ak-Chin Fire Department encourages all residents to embrace the 2022 Fire Prevention Month theme.

It's important for everyone to plan and practice a home fire escape. Everyone needs to be prepared in advance, so that they know what to do when

the smoke alarm sounds. Given that every home is different, every home fire escape plan will also be different, have a plan for everyone in the home. Children, older adults, and people with disabilities may need assistance to wake up and get out. Make sure that someone will help them!

The Ak-Chin Fire Department and the Ak-Chin Health and Education Department want to share these key home fire escape planning tips:

- Make sure your plan meets the needs of all your family members, including those with sensory or physical disabilities.
- Smoke alarms should be installed inside every sleeping room, outside each separate sleeping area, and on every level of your home. Smoke alarms should be interconnected so when one sounds, they all sound.
- Know at least two ways out of every room, if possible. Make sure all doors and windows open easily.
